U.S. Bank **Business EZ Switch** Kit

Thank you for choosing U.S. Bank. Our business EZ Switch Kit is designed to assist with transitioning your activity seamlessly. Simply follow the five easy steps below to complete your transfer to U.S. Bank.

Step 1: Open a new business checking account.

Tip: Write down the routing number and your new business checking account number. You will need this information to change your automatic payments and direct deposits from your old account to your new U.S. Bank Account.

Step 2: Stop using your old business checking account.

Tip: Keep the account open until all outstanding checks have cleared and your automatic payments and transactions have been switched over to your new U.S. Bank account.

Step 3: Transfer your automatic transactions to U.S. Bank.

Tip: Contact your vendors and merchants who may send automatic payments to your old account and notify them of the new U.S. Bank routing and account number.

Step 4: Switch your automatic payments.

Payments such as dues, utility bills and vendor payments that are automatically debited from your account will need to be notified of the new U.S. Bank account.

Tip: Have your new checking account number and routing transit number handy when you call to switch. If they require written notification, included are our easy Automatic Payments Change Forms to assist with your switch.

Step 5: Close your old business account.

Once all your checks have cleared and your automatic payments and direct deposits are successfully being deducted or credited from your new U.S. Bank account, close your old account. The included Request to Close Account Form can be used to notify your old bank.

Tip: If you have old checks, bring them to any U.S. Bank location and we can securely shred or destroy the old inventory and order new deposit materials.

For more information please contact your local branch.

It's that easy.
